

Connecting People and Potential

Connecting People and Potential

Founded in 1960 and headquartered in Fort Wayne, IN, Benchmark has grown to become one of the most respected organizations in the country in the areas of intellectual and developmental disabilities (IDD) and behavioral health. We develop solutions to support individuals with complex needs and high costs of care.

We work with people at home, at work, and in the community, providing specialized residential services, child and family well-being services, mobile crisis response, community transition, and more.

Our 60+ years of experience led us to provide walk-alongside support to build up providers and improve systems in a service called Active Consulting. We are a go-to partner for state and county governments, health plans and MCOs, and service providers all over the country.

Throughout our work, the mission to help people live as independently as possible, be included in the community, and reach their full potential. In short, we connect people and potential.

Mobile Crisis Response

Community Transition

Customized Services

Active ConsultingSM

Licensed clinicians deliver intensive, walk-alongside consultation and 24/7/365 wrap-around clinical support for providers and family caregivers supporting individuals at risk of or in crisis.

Specialized Residential

Tailored short- and long-term residential services for individuals with extensive medical and behavioral needs, individuals in crisis, individuals with forensic backgrounds, and individuals transitioning out of institutional settings and into the community.

Child & Family Well-Being Services

Our staff collaborate with the child welfare agency, the referred family, and any collateral supports to provide counseling, case management, and other services with the goal of keeping the child and family healthy, safe, and together.

Mobile Crisis Response

Teams of clinical staff and peer support specialists provide 24/7/365 crisis response to anyone in need (both in-person and remote). We de-escalate crises and connect individuals with community resources, reducing unnecessary use of emergency department and law enforcement resources.

Community Transition

Experienced staff provide intensive transition planning, clinical, habilitation, residential, and other services to assist children and adults in moving to less restrictive settings.

Benchmark operates in 19 states, and our full roster of services includes Active Consulting, autism services and ABA therapy, case management, day services, early intervention, employment services, child and family well-being services, group homes and supported living, mobile crisis response, and pediatric home health.
