

Let's Play Benchmark Bingo!

Iris the Inclusive Iguana knows that celebrating our unique traits is a key part of helping everyone feel included.

Your goal is to connect with your coworkers or the individuals you serve by finding people who match the prompts on your card. When you find a match, write that person's name in the square. Try to get five in a row (across, down, or diagonally) or see if you can fill the card!

This is just for fun, so take the opportunity to mingle, ask questions, and learn something new about the people you work with.
