Family Support 360 Support Coordination from Benchmark Human Services

Every person deserves the opportunity to live a meaningful life, pursue their goals, and be an active part of their community. That's why Benchmark Human Services is proud to provide support coordination services for individuals enrolled in South Dakota's Family Support 360 (FS360) Waiver.

FS360 supports people with developmental disabilities and their families by connecting them with services and resources that promote independence, choice, and community inclusion. At Benchmark, we believe services should be guided by the individual and their family, not the system.

Person-Centered Support Through Charting the LifeCourse

Benchmark Family Support Coordinators are trained in the Community of Practice/Charting the LifeCourse Framework, a nationally recognized approach that helps individuals and families create a vision for a good life.

This framework is built on the belief that ALL people should have the opportunity to live, love, work, play, and pursue their dreams in the communities they call home.

Independent Advocacy You Can Trust

In South Dakota, Benchmark provides support coordination and case management exclusively. Because we do not provide direct services, we can remain objective advocates for the individuals and families we support. Our only priority is helping you access the services, supports, and opportunities that best fit your needs and goals.
